DETAILED ACTION

Allowable Subject Matter

1. Claims 3-7 (renumbered 1-5) are allowed. The following is an examiner's statement of reasons for allowance: the closest prior art of record is Endo. Endo teaches a tire manufacturing method in which a cover rubber a4 is positioned to cover a first colored sidewall rubber a2 and a pair of second colored sidewall rubber layers a1,a3. The method of Endo further includes the steps of vulcanizing the tire in a mold having a recessed part to accommodate a projecting portion of the tire and subsequently buffing the surface of the tire to expose the first colored sidewall. As to the particular manner in which the respective layers are applied, Tanaka and Ikeda evidence the known use of each of the claimed techniques (spiral winding and application as a single, continuous piece). The prior art references of record, however, fail to suggest, disclose, or teach each step of the formation, application, and cutting techniques.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
